

# DOT QUARTET TECHNICAL RIDER

Instrument	Channel	Mic	Observations
Violin I	1	DPA 4099	
Violin II	2	ATM350	Provided by artist
Viola	3	T.bone CC 100	Provided by artist
Cello	4	DPA 4099	Provided by artist
Voice Violin II	5	Shure 58	

DOT Quartet is an acoustic ensemble aware of its balance and dynamic range. A natural sound and adequate-to-soft levels must be considered. In case of open air spaces or very dry halls, a reverb de 1'4 - 1'8 seg will be added to the mix.

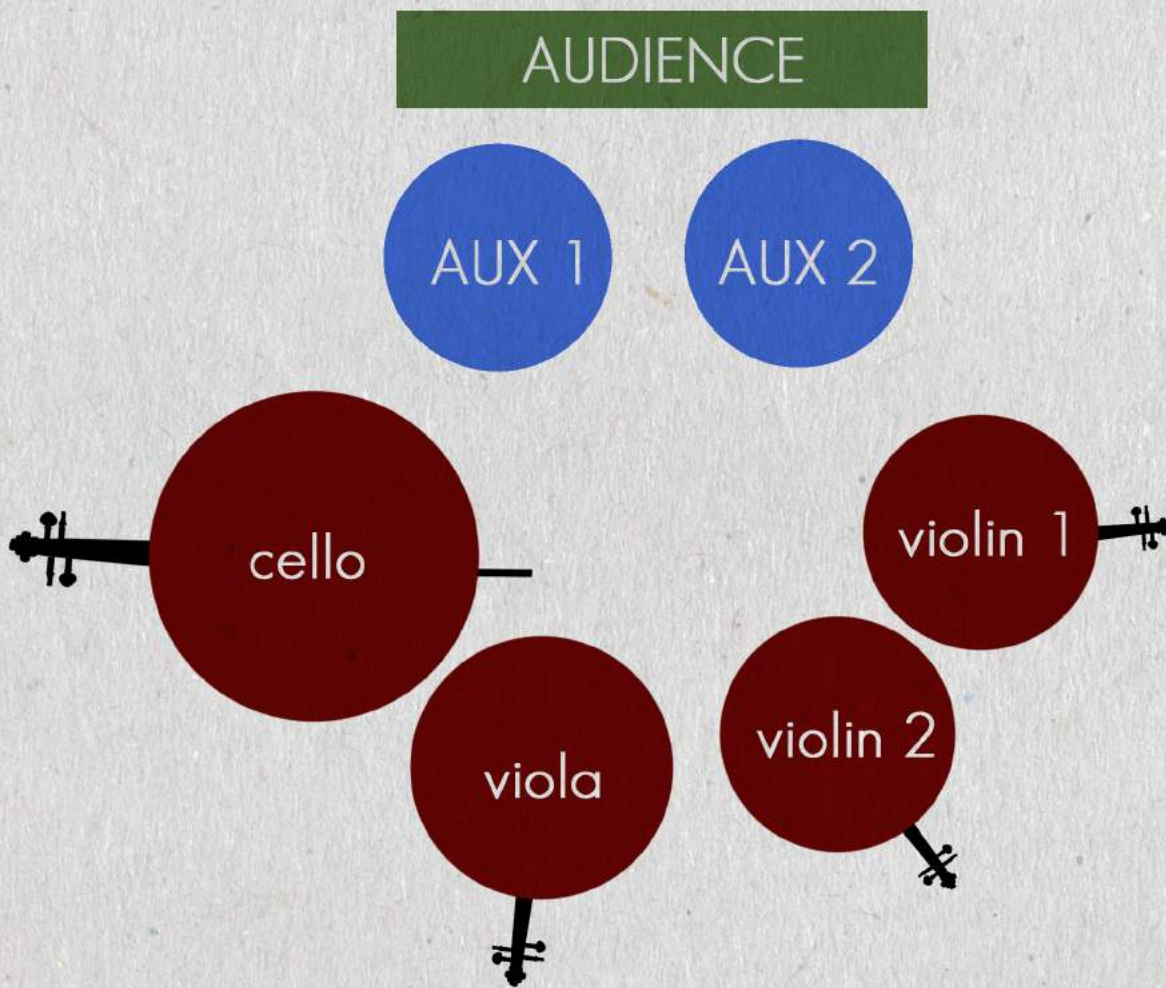

Organization will provide a proper PA System that is suitable to the needs of the hall. Also, two monitors will be placed on stage (see stage plan). Moreover, organization must provide the following material:

x4 chairs without armrest  
x4 music stands  
x4 bottles of water

## Lights

Organization will assure that there is sufficient lighting on stage. In the case of extended lighting possibilities such as colors, effects... a basic general light will be fixed for each of the players.

# STAGE PLAN

## Other considerations

Organization will provide a backstage room for warming up before the concert if possible. Water/coffee/tea may be provided at the arrival to the venue.
